

Mineral Tank Funnels

Clack Corporation's residential and commercial tank funnels are designed for filling mineral tanks with granular media and ion exchange resin. The funnels are designed to fit 2.5", 4" and 6" mineral tank openings.

The U1007 funnel snaps into a 4" or 6" mineral tank opening for stability when pouring media. The neck of the funnel has been carefully designed to allow trapped air inside the mineral tank to escape when media is poured in. This heavy duty part is blow molded out of high density polyethylene for exceptional strength and durability. The oval design provides an extra wide opening for ease of use when pouring. Handles are molded into the funnel for added convenience.

These economical funnels are nestable to reduce shipping and storage costs.

U1006

U1007

ORDER NUMBER	DESCRIPTION	QTY/CTN
U1006	Funnel 2.5" Openings	50
U1007	Funnel 4" and 6" Openings	As needed
